Have you got colouring pencils or crayons?

It can be very boring waiting around in hospitals.

To help pass the time and to distract children from the monotony of hanging around, as well as to ease their distress and pain, **this collection of drawings were donated to The TLC Appeal by Malcolm Eisey**, for colouring in.

Please feel free to download these pictures (in PDF format) by clicking on the ones of your choice. **You may print or photocopy them as often as you want.**

Would your Local hospital be able to use them? Please ask.

Each file is approximately 200kb and will print as A 4. Adobe Acrobat reader 5 or later required.
